Dear Mr. Smith:

I am writing to inform you that the interim stabilization measures you requested be taken at the above referenced mines in your letter dated January 27, 1983, has been completed. We trust this satisfies the Division's concerns and will allow you to approve the requested suspension periods for these five mines.

Two additional mines were also mentioned in your January 27, 1983 letter; Cane Creek and the Cactus Rat. The Cane Creek Mine is scheduled for reclamation this fall, however, work there has not yet begun. The Cactus Rat Mine may be re-opened this fall as a potential lessee has expressed an interest, however, no final decision has been reached. Once this decision has been made I will notify you of Atlas' intentions.

Respectfully,

Ricky J. Broschat
Environmental Specialist
